PERSONAL SKILLS

- Creativity
- Analytical Skills & problem solving
- Communication skills
- Professionalism and hard work
- Time management
- Team Work & collaborative.

TECHNICAL SKILLS

HTML, CSS, JavaScript, RESTful API,

Bootstrap, React, Hooks, Node.js, Express,

PostgreSQL, Data Structures &Algorithms,

Jira, Slack, Git & Github, Deployment &

Documentaion

CERTIFICATIONS

- React
- NodeJs
- Data Structure
- Algorithms

LANGUAGES

Arabic   Native

English   Professional working proficiency

PROFILE

I strive to explore every uncharted aspect of programming and have a genuine passion for understanding complex topics. I am particularly interested in the intricate details of how technology works.

EXPERIENCE

LTUC/ASAC in partnership with Code Fellows

Full-Stack Developer Intern   Mar 2024 - Present

- Participated in an intensive, project-focused program.
- Developed strong proficiency in JavaScript, Node.js, React, PostgreSQL, C#, and .NET.
- Enhanced problem-solving skills through real-world applications and collaborative projects.
- Completed an immersive Full-Stack Development Bootcamp, committing to 10 hours daily

---

PROJECTS

The Wheel Deal   Demo 🔗

Used Tech: React, Node.js, JS, PostgreSQL, API

- Comprehensive car rental application designed to enable seamless browsing of available vehicles, reservation-making, and efficient booking management.
- Includes user-centric features for enhanced usability.
- Incorporates an administrative role with centralized control over vehicle listings and reservations via a dedicated dashboard.
- Ensures smooth operations and enhances efficiency through integrated user and administrative functionalities.

Student Behavior Evaluation System

Used Tech: React, Node.js, JS, MongoDB, API

- Developed a Student Behavior Evaluation System as a front-end developer.
- Collaborated on absence tracking, attendance recording, note sharing, real-time chatting, and student performance assessment features.
- Proficient in Git for version control.

EDUCATION

Zarqa University

B.Sc. in Software Engineering   Sep 2020 - Sep 2023
